SOFT SKILLS

- Problem-Solving
- Team Collaboration
- Adaptability
- Time Management

PERSONAL DETAILS

- Date of Birth: **21-Sep-2001**
- Marital Status: **Single**

PROFILE SUMMARY

Results-driven Full Stack web Developer with expertise in ASP.NET, Angular, and Web API development. Passionate about building scalable, high-quality web applications that enhance user experience and streamline functionalities. Seeking to contribute my skills to an innovative and collaborative development team.

WORK EXPERIENCE

Full Stack Developer   (JAN 2024- PRESENT)
Anamya Tech LLP

- Designed, developed, and maintained web applications using ASP.NET Core, Angular, and Entity Framework.
- Integrated RESTful APIs, enhancing system interoperability and performance.
- Implemented authentication and authorization mechanisms, increasing security and reducing breaches.
- Utilized logging tools for real-time monitoring, reducing debugging time.
- Collaborated with cross-functional teams to analyze requirements and improve application efficiency.

PROJECTS

MGB (ASP.NET Web API & Angular)

- Developed a financial management system for tracking expenses, income, and events.
- Ensured data integrity through robust validation techniques using data annotations.
- Leveraged Entity Framework Core for 50% faster database operations and management.
- Integrated logging mechanisms, improving application monitoring and reducing downtime.
- Implemented secure authentication measures, reducing unauthorized access.

KeepUSPostd (Angular)

- Developed and maintained an influencer platform with API integration and routing.
- Implemented seamless navigation for review submission, feedback, and a reward system.
- Enhanced user experience, increasing engagement by 20%, by integrating social sharing features (Facebook, Twitter).
